

The logo for UNGER, featuring the brand name in a bold, white, sans-serif font inside a green, stylized shape that resembles a water droplet or a cleaning tool head.

Quality Tools for Smart Cleaning

HYDROPOWER[®] NANO SYSTEM

A man in a black long-sleeved shirt and pants is using the UNGER HydroPower Nano System to clean a modern building with large glass windows. The system consists of a green and black motor unit on a cart, connected by a long green hose to a long, telescopic metal pole. The pole is extended high up to reach the upper floors of the building. The scene is set outdoors on a paved area with some greenery and a clear blue sky.

HYDROPOWER NANO SYSTEM
EASY, ECONOMICAL, SUSTAINABLE

Quality Tools for Smart Cleaning

PURE WATER SYSTEM

Economical Pure Water System with Nanofiltration & Deionization (DI) Technology for Powerful Cleaning

HYBRID PURE WATER SYSTEM

Revolutionize your cleaning process with this advanced, hybrid Pure Water System. Designed for cleaning professionals, it seamlessly integrates a triple-stage filtration system with a pre-filter, an **innovative NANO-membrane**, and the proven **HydroPower Ultra Resin concept**.

ADVANTAGES

**NO POWER CONNECTION
REQUIRED**

**MOBILE AND
EASY TO USE**

**UP TO 14x MORE REACH
PER RESIN PACK**

OPTIMAL PURE WATER OUTPUT
approx.: 100-260l/h*
(0-100% Mix with Flow Optimizer)

*At 21 °C water temperature, 3,5 bar water pressure and connected outlet hose with 1/2" inner diameter without counterpressure at the water outlet

HYDRO POWER NANO SYSTEM

Efficient pure water cleaning with triple-stage filtration

HYDROPOWER® NANO SYSTEM

The system delivers an economical and effective cleaning solution that produces spotless, pure water for a streak-free finish, **without pump and electricity**. With an emphasis on portability, performance, and ease of use, it's a perfect choice for cleaning windows, facades outdoor especially in areas with hard water.

MANOMETER:

- Measures amount of water pressure entering the system before the membrane

FLOW OPTIMIZER DIAL:

- Blend dial
- Balances pressure and resin usage

PRE-FILTER:

- Effectively removes chlorine, sediments, and particles
- Prolongs membrane life

HYDROPOWER ULTRA:

- Up to **14x more reach** with every resin pack, through upstream NANO-membrane and flow optimizer

DIGITAL TDS METER:

- Displays the quality of the outgoing water at the touch of a button

INNOVATIVE NANO MEMBRANE:

- Advanced filtration technology
- Removes impurities from water
- Residue-free glass cleaning
- **Without pump and electricity**

CONVENIENT POLE STORAGE:

- Straps and holders on each side
- Secure and organised storage of poles
- Enhancing on-site organization and efficiency

CONCENTRATE HOSE:

- Drains the waste-water that does not pass through the membrane

COMPACT AND PORTABLE DESIGN:

- Durable, yet lightweight frame featuring large wheels
- Easy transportation and navigation across uneven terrain
